DEBRIEFING

PACKET

CONFIDENTIAL

"Those who witness ust be willing to forget - and still return."

I: INTRODUCTORY NOTICE:

You aare in possession of a document meant only for those whose eyes have met the Archives offerings. This is not a welcome.

THis is a warning - and an invitation.

You have seen one or more footage logs classified from within the WR ARCHIVE which breaches the intelligence protocols. These video rules are not entertainemnet. They are residial events. Echoes. Memories not bund by time, but sealed within layers of encoded perception. Every reaction-emotional, physical, spiritual- is recorded as part of your viewer signature.

II: PURPOSE OF THIS DEBRIEF

The Archive's mission is not to explain, but to document. Your response - whether confusion, fear, euphoria or silence - it is part of the evidence trail. We ask for honesty, not clarity. No two individuals expereince the same film in the same way. Some see symbols. Others hear voices. A few don't survive the feeling at all.

Each piece you complete contributes to the mapping of a larger phenomenon we do not yet understand.

This packet is your field response. Treat it with strict seriousness, or humor, or reverence, The Archive accepts all fors of reaction, but marks those who lie.
